RE: Tybouts Landfill

Dear Sir:

This is to notify you that on January 21, 1970, the Landfill was not operated in accordance with the contract.

The following specific paragraphs were violated:

a) Paragraph 9-11.

The fencing arrangements were inadequate and large amounts of deposited materials were blown from the area. Provisions for immediate recovery of escaped material were also inadequate. The men who were supposed to do this work left work at 4:00 PM, two hours before the closing of the landfill.

b) Paragraph 18.

The paper blowing across Route #13 was a definite hazard. The site was not maintained in such condition as to conceal evidence of all waste after completion of daily operations.

We have, since October 1969, on several occasions, brought these items to your attention but with very little results.

Please consider this letter a formal notification of violation of the contract. We refer you to paragraph 26, page 14, of the contract, and request that you comply and correct these conditions within the time limit specified in this paragraph.

*Logan dig - 35 mph wind
4 extra laborer*

Very truly yours,

G. W. Dutcher,
Director

Udis Karins
Assistant County Engineer
